ZYGO optical surface profilers (profilometers) are next-generation metrology systems based upon proven, award-winning, and patented, technologies developed by ZYGO. Sun, 02 Dec 2018 06:33:00 GMT 3D Optical Surface Profilers (Profilometers) - Production engineering is a combination of manufacturing technology, engineering sciences with management science. A production engineer typically has a wide knowledge of engineering practices and is aware of the management challenges related to production. The goal is to accomplish the production process in the smoothest, most-judicious and most-economic way.
